Proceedings of an international symposium held during IUGG 99, the XXII General Assembly of the International Union of Geodesy and Geophysics, at Birmingham, UK, 18–30 July 1999. The symposium was convened jointly by:

- the International Committee on Tracers,
- the International Committee on Remote Sensing and Data Transmission,
- the International Commission on Surface Water,
- the International Commission on Groundwater,
- the International Commission on Snow and Ice and
- the International Commission on Water Quality

of the International Association of Hydrological Sciences. The symposium was organized within the framework of the International Hydrological Programme of UNESCO (IHP-V).
